<p><b>Function</b> (<u>What</u> do you <i>want and like</i> to do? What strengths/talents/skills/passions have you excelled at in the past? What are your spiritual gifts? What would you like to learn to do? What job titles are associated with these functions? Conversely, what do you want to avoid? If there were one task you couldn't give up in your current career, what would it be? Job titles will often be associated with the <u>F</u>unction.)</p>	<p><b>Fulfillment</b> (<u>Why</u> do you work? What do you sense is God's purpose/destiny for your life? What difference do you want to make in the world? How would you describe your living legacy? Why will this be rewarding?)</p>
<p><b>Industry/Interests</b> (<u>Where</u> do you want to use your "function" skills? Where do your interests, knowledge, or experiences lie? What industries/companies/products do these interests represent? Conversely, what situations do you want to avoid?)</p>	<p><b>Identity</b> (<u>Who</u> are you? Who are you becoming? Who does God want you to be? What adjectives best describe your present and future you? How do you want others to perceive you? Who are your role models? Who have been your key supporters?)</p>
<p><b>Things That Matter</b> (<u>Which</u> values and priorities—financial, work/lifestyle, environmental, intellectual, emotional, spiritual—must be present for you to be your best in your work?)</p>	<p><b>Type</b> (<u>How</u> do you prefer to reenergize, take in information, make decisions, and orient your environment? For instance, are you more energized by people and things or ideas and concepts? Do you primarily trust information that is tangible and concrete or abstract and conceptual? Do you prefer to make decisions based on logic or how it will affect people? Do you prefer an environment that is more controlled and predictable or unstructured and variable? How do you learn best?)</p>
